

## CLEAR TOP

### Characteristics of Emulsion

Appearance	: Transparent Liquid
Nature	: CAB in Solvent (Nitro Free)
Solid Content	: 15 ± 1%
pH (10% Sol.)	: N.A.
Flexibility	: Good
Film Hardness	: Medium Soft
Gloss	: Bright

*Colloidal free (free from nitro groups) cellulose ester based non-yellowing, glossy, clear top coat for pastel and white leather that require high lightfastness.*

CLEAR TOP is highly recommended for use as top coat for white and light coloured upholstery or upper leathers that need to be moulded with PUR components. It imparts medium gloss and a pleasant, smooth feel. It has extremely good light fastness and is not affected by remnants of Amine escaping from PU foams as these Amines destroy conventional NC top coats.

CLEAR TOP is nitro free and does not require any addition of plasticizer. Another major benefit of Clear TOP over Nitrocellulose solvent top coats is that its solids present no fire hazard

### Usage

It dilutable with thinners, composed mainly with Acetates, in the ratio of 1:1 to 1:2 depending upon the properties required.

### REACH COMPLIANT

### Green-Trek- Compliant

A symbol of our commitment to sustainable technologies

Storage : Store between +5 ' c to 35 ' c in original pack, well-sealed & stored.  
Shelf-life : Product is stable for 6 months from the date of production / Invoice.

Non flammable

Avoid direct contact with skin

Store in dry place

Use Gloves / Ensure Ventilation
