

WHITE TOP

Characteristics of Emulsion

Appearance	: White
Nature	: CAB and Titanium Dioxide
Solid Content	: 23 ± 1%
pH (10% Sol.)	: N.A.
Flexibility	: Good
Film Hardness	: Medium Soft
Gloss	: Medium

REACH COMPLIANT

Green-Trek- Compliant

A symbol of our commitment to sustainable technologies

Storage : Store between +5 °c to 35 °c in original pack, well-sealed & stored.
Shelf-life : Product is stable for 6 months from the date of production / Invoice.

Non flammable

Avoid direct contact with skin

Store in dry place

Use Gloves / Ensure Ventilation

Non yellowing, NC free, solventborne, white pigmented top coat, for for 'a pure and neutral' look on white leathers.

WHITE TOP is a highly lightfast, solvent dilutable pigmented top coat for high end white leathers. It provides medium gloss, a smooth & soft surface feel, good flex, and has excellent light/ heat ageing properties. The product being free of any nitro compounds is safe for the production of white shoes upper leathers where PU soles will be attached later.

WHITE TOP has good flow properties and is quite economical in application because of its high pigment content and excellent covering action. It is recommended to avoid use of any other auxiliary or plasticizer in White Top as additives may affect its lightfastness.

Usage

Stir before use 

WHITE TOP is a readily pourable solution. It is dilutable with organic thinners composed from Acetates and primary alcohols. The dilution ratio should be 1:1.

Top Coat	:	100 parts White Top
		100 parts Butyl Acetate

The product may separate into layers on prolonged standing. The homogenous form is restorable by simple stirring.

Note: Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
